

The Federal Communications Commission

Dear The Federal Communications Commission,

The FCC is not a taxing agency and was never ment to be.
You need to review your by-laws and abide by them.

Our Government is so embedded with the large corporations that they will sacrifice us, their citizens for the money paid to them by these corporations.

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Josephine Masterson
